[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO SEPT. 18.

EASTERN STATES.

The Tammany Thieves.

NEW YORK, Sept. 17.—The latest report of the situation in the Tammany matter, is that Mayor Hall considers the office of Controller vacant by reason of Connolly giving it up to a deputy, and that Hall has appointed Gen. McClellan Controller. It is said McClellan will accept if there are no legal difficulties in the way. If he declines, the Mayor will appoint S. M. Barlow, a well known Democrat and very wealthy citizen.

Several facts which have been developed in connection with the appointment of Green have led to the belief that it was brought about by the active agency of the Democratic State Central Committee. S. J. Tilden, a member of the Committee and opponent of the Ring, is credited with suggesting the arrangement and aided in its negotiation by ex Mayor Havemeyer who, it is concluded is known to be at the head of a formidable movement for a reorganization of the Democratic party, which has the support of the State Central Committee. Havemeyer is understood to be the bondsman of the new Deputy Controller. The new situation was generally accepted in view of these facts as the beginning of active operations by the State Central Committee against the ring, or at least that part of it which hoped to save its life by sacrificing Connolly.

The *Times* says editorially in regard to Green's appointment: Even the *World* will find it a hard task to vilify Green or to assert that he is not the proper man to take Connolly's position. Green is a Democrat, but is a man who would be a credit to any party and whose verdict we should be quite willing to accept.

Other New York News.

NEW YORK, Sept. 17.—Sixty thousand unseen torpedoes were seized to-day by the Chief Office Department and were opened and emptied into the Hudson river.

A suggestion is made to hold an international Congress to discuss the question of prison management in Europe and America. It has been adopted in Europe.

Henry McCreary, of Barnes' station, near Pittsburg, Pennsylvania, in a fit of insanity, leaped from the Roseville ferryboat yesterday and was drowned. Body not yet recovered. A check for $3,500 and $110 in currency were on his person.

John Kelly, aged 17 years, employed in Goldman's flint works, Trenton, New Jersey, fell through a hole in the floor into the flint cracker below. He was run into the wheels and his body, passed under water below and was literally ground up.

Yellow Fever in Charleston Abating.

CHARLESTON, S. C., Sept. 17.—Only three yellow fever deaths since Friday. The disease is gradually dying out.

Chicago Dispatches.

CHICAGO, Sept. 17.—Last night, Andrew Perfect, colored, cut his wife's throat from ear to ear, killing her instantly. The murderer then went to the station house and asked for protection, saying that he had been attacked, evidently pretending insanity. He is in custody.

The Grand Lodge of Odd Fellows of the United States meets here to-morrow. A large number of delegates have arrived, including delegates from California and Oregon.

From Philadelphia.

PHILADELPHIA, Sept. 17.—The Bankers' and Brokers Telegraph Co. closed their offices to-day. The business will be turned over to the Western Union Company, which will probably purchase the former company's interest.

WASHINGTON CITY.

Miscellaneous News.

WASHINGTON, Sept. 17.—Rangabe, late charge d'affaires to Greece from the United States, is transferred to St. Petersburg in a similar capacity.

The United States and Mexican Claims Commission is expected to resume its session this week. One hundred and fifty cases will be submitted against the United States, claiming $4,500,000 damages for the sacking of Bagdad. This subject is expected to be disposed of in a week or ten days. One hundred and fifty similar cases are pending, claiming $11,200,000 damages for the sacking of Piedas Negras in 1856, the town having been invaded by United States troops in pursuit of hostile Indians. The United States Government took much pains to procure offsetting proofs, having sent an agent to Mexico especially for that purpose.

BY ATLANTIC CABLE.

The Mount Cenis Tunnel.

PARIS, Sept. 17.—The Mount Cenis tunnel was inaugurated to-day by the French and Italian Ministers and local authorities of both countries. After the meeting and congratulating each other, the party embarked in a gaily decorated train at Bardusche and passed through the tunnel to Modona in twenty minutes.

Miscellaneous European News.

ATHENS, Sept. 17.—The Queen of Denmark is expected here shortly.

MADRID, Sept. 17.—Espartero places his hotel at Logram at the disposal of King Amadeus during his visit to the province.

PARIS, Sept. 17.—Canrobert's headquarters are at Bourgevoin.

The Nationals at Stetouni quietly gave up their arms.

Petitions for the dissolution of the Assembly are in circulation at Lyons.

The races at Bois de Boulogne commenced to-day and were well attended.

Victor Hugo is sick with pleurisy. His condition occasions alarm.

LONDON, Sept. 17.—It is reported that the employers at Newcastle have agreed to increase the wages.

The small pox is disappearing from Weymouth.

The *Observer* has a special from Bucharest stating that the German bankers and the Roumanian Treasury Department are ready to settle, and a satisfactory adjustment of the financial difficulty is now considered certain.

POLITICAL NOTES.

Latest accounts place the debt of New York city at $200,000,000, an increase of $160,000,000 in less than three years. A fine specimen of Democratic economy!

Pearce, Dem., defeated for Congress in the third district of California, has sent a telegram to Coghlan, his successful competitor, saying, "I move to make it unanimous."

The Boston *Journal* says: "The Democracy are still without any guiding policy, except opposition to Republicanism, and they are debating whether they shall not so far give up that as to acquiesce in the Republican measures of four or five years ago."

The Albany *Express* says: "Let the grumblers continue to grumble. People of average intelligence will praise the administration for reducing, by honorable means, the principal and interest upon the public debt; and people of average honesty will sustain Congress and the Administration in paying our creditors the full amount that we agreed to pay."

The Sacramento *Reporter*, Democratic State organ of California, has received light. It talks in this way about the election: It is no child's play, this fighting Radicalism in California. The Democracy triumphed four years ago by the aid of thousands of Radical votes. A majority of the people of the State are Radicals, and the election of the 6th instant leads us to believe that they endorse the whole policy of that party.

Woman Suffrage.

PORTLAND, Sept. 16th, 1871.

To the Editor of the Oregonian:

SIR: Your editorial in the daily of to-day upon "Woman Suffrage," embodies my sentiments in to-to so far as it goes; but I beg the privilege of a little extension of the same subject.

Unlike yourself, I do take a stand against "Woman Suffrage"—not what is some times called a *manish* position, that is, with a selfish prejudice against it. But I do contend that to extend their request to the extent they ask, would be the extension of a privilege (perhaps a right) which would deteriorate from woman's best interest, and what would depreciate her present influence. Men and women are much alike—mentally they are the same. That which attracts one [illegible] will have a like influence upon the other; and *this* is my greatest reason for opposing the movement. Experience has taught us that the political arena is a hazardous one for men to enter. There is something in it fascinating, intoxicating. Men reared and trained from infancy to habits of truth, temperance and virtue, so much so that they were supposed to be impregnable, after entering the political arena, and especially after having acquired office, have fallen oh! how far. Not only has this been proven true times without number *individually*, but as a *body* politic. This is so true that I affirm this to be the necessity for rival parties.

When a new party is placed in power, while it is weak, how very steadily it holds governmental reins. Everything goes like "clock work," as we some times say, for awhile; no robberies committed, no frauds practiced, individuals in office are vigilant and correct. But by and by the party gains strength until it realizes that it has a controlling power. Then what follows?

Why, villainies of every caste and degree are practiced by incumbents in office—so much so as to arouse the injured majority to a sense of their condition, and they go to work, organize a party of purer principles and vote the incumbents out of office.

Then for a little while the purified ranks move along again.

Of these villainies our noble women are at present innocent. But arguing from the hypothesis that men and women are mentally alike, prompted to acts of wrong by like motives, does it not seem a logical conclusion that they, like men, would degenerate into vicious habits and feelings?

And if this deduction is a correct one, would not pure, innocent women be let down?

Some argue that women are intrinsically better than men. I don't believe it. Originally both were pure, but neither are now.

Women are better than men now, but I think it is the associations by which they are surrounded that makes them so.

Take away those surrounding influences and surround them by the evil ones by which boys and men are surrounded, and I give it as my opinion that women will descend to a greater extent than men will ascend. Advocates of Women's Rights ask more than would be advantageous to them if they should get it.

Description of a Tammany Thief.

The telegraphic dispatches for sometime have contained little else but the doings of the Tammany ring and the action of honest citizens against the thieves. The other day it was stated that Connolly, the Controller of the city, had been making over his plunder to his wife, and she to her son, to keep it out of the reach of the people who have been robbed. A description of this Tammany thief we find in the New York correspondence of the Chicago *Tribune*. It will prove interesting to the general reader:

It is a great advantage to a scoundrel to be without sensibility or breeding, and though in this last respect Dick Connolly is happily wholly deficient, yet by some law of compensation he is a victim of the former weakness. Dick's sensibility is mere terror intensified by superstition. The apparition of a gallows and a vigilence committee is ever present to him, and being ignorant as a brute, he is invariably excited over newspaper exposures of his transactions. The type and the press are to him handwriting on the wall and the instrument of torture. He inwardly howls and grovels when the truth comes out and his thieving is exhibited. "My God!" he said, a couple of days ago, "this matter in the *Times* has driven me wife and me children away from their home in the country. The couldn't absolutely live there. And what is to become of us all?"

To look upon the poor millionaire footpad resembles an Irish informer against his country man in the employ of the British Government—such as we see depicted in Lever's novels or in Boucicault's dramas. He is a native Irishman, and, I believe, a Corkonian; fat, large, with a beardless, treacherous face, carrying in its creases a shallow, spontaneous smile, the emanation of a weak and ductile nature. His long, aquiline nose and good forehead do not redeem this pliant, cowardly face from its repulsiveness, and his familiar, conciliating address complete the impression of Connolly's moral and social usefulness. His use in Tammany is to sell out mutinous Democratic organizations, to keep certain of the worst wards and districts tractable, and to shave warrants and bills for the benefit of the band. It is seldom that a bill against the corporation is paid to the amount of its face by this Shylock. He pleads an empty treasury, till some of his many creatures can overtake the creditor and make a ruinous compromise; the bill is then paid to its full claim, and the difference above the compromise goes into Connolly's pocket.

This mean spirited thief is without Tweed's ingenuity for inventing collateral subjects of plunder, or Sweeney's abstract and comprehensive ambition. He knows no other way to steal but merely to go and steal.

"Why do not the Tammany leaders, as a mere matter of pride and to still the clamor, finish the new court house edifice?"

I put this question to a Tammany man. "Why?" he said. "Because Dick Connolly, when they voted $800,000 two years ago to finish it, stole all but $20,000 before they had drawn against the appropriation. Last year they voted $1,500,000 to finish the work, and Connolly, before they could touch the money, had stolen all but $300,000."

The new court house could be built by any builder of discretion in the United States for $1,000,000, but it has cost as much as the Treasury at Washington, or upwards of $7,000,000. And there it stands, perfectly suspended, a monument of nothing but civic impotence and crime. It is a white marble building in Corinthian architecture, about half or less than half the size of the Chicago county and city hall. Neither of its porticos are completed, and the dome does not appear. Yet in this forlorn structure there are charges for carpets alone of $673,752 49, which is more than the entire cost of all the national offices at Washington City; $12,000 is the largest sum that it would be possible for the carpets in this building to cost.

A Berlin letter says: That Bismarck wishes an Austro-German alliance is manifest to all who watch the course of German politics. That more is felt than is said, is manifest, and we are apt to read between the lines the dread of a Russo-French counter alliance as the real motive.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

Fire at Chicago—Children Burned.

CHICAGO, Sept. 18.—Mrs. Brown in the Western part of the city went to church last night and left her two children locked in the kitchen. A fire broke out and they were smothered before discovered.

Fire at St. Albans, Vermont.

ST. ALBANS, Sept. 18.—A disastrous fire broke out on Lake street this morning and raged five hours. The entire south side of the street from Farwell's block to the St. Albans House is in ashes. Fifteen families are homeless by the fire. Loss $300,000, largely insured. Firemen could do nothing for want of water.

Fight among the Tammany Thieves.

NEW YORK, Sept. 18.—Phases of the municipal fight are creating great excitement through the city. Connolly's action came like a thunder clap on Hall, Sweeney and their adherents. All last night Hall and his friends were consulting. The fight is now reduced to one between Hall and Connolly and their followers. Hall's desperation is shown by the removal of Connolly, thus using a power he had declared he did not possess. The action of Tilden aimed at the destruction of the ring. The attempt of Hall to checkmate will probably result in a crisis which it is impossible to speculate upon.

The *Tribune* thinks it a matter of congratulation that the affair has taken this turn. The *World* says Connolly was persuaded into the course he took by promises of protection from the consequences of his conduct. It declares that the new Judge is approved by the Murphy men. It is thought it will so demoralize the Democrats as to secure the State for the Republicans in November.

Mayor Hall publishes in to-day's *Herald* a letter to Connolly, saying he considers his action in relinquishing his office to a deputy as a legal resignation. He therefore considers the Comptroller's office vacant, and has appointed a person to fill the vacancy. He writes a letter tendering the office to Gen. McClellan.

Later Phases.

NEW YORK, Sept. 18.—It is not generally known whether McClellan accepts the Comptrollership or not. Connolly is in the office to-day, and Green entered on his duties this afternoon. An opinion is expected to-day from the eminent lawyer Charles O'Conor, taking the ground that Connolly's course is sustained by law and Hall's is not. As Connolly is in possession, it is thought he will resist any attempt to oust him.

Connolly's reply to Hall denies the authority of the latter to exercise power, and declares he will not retire. Green has just delivered to a committee of citizens and Aldermen all documents in the office required in the investigation of the municipal accounts. Hall's clerks this afternoon refused to file the official oath of Green.

BY ATLANTIC CABLE.

The Newcastle Strike.

LONDON, Sept. 18.—The proposed demonstration in favor of the Newcastle strikers has been abandoned. Many foreign workmen are arriving at Newcastle. A mass meeting there resolved to continue the strike.

The steamer *Paraguay* from New York has arrived.

Thiers Failing in Health.

NEW YORK, Sept. 18.—A Paris letter says that Thiers is beginning to show signs of over work. He is subject to fits of prostration, caused by anger at squabbles of the Chamber. His strength is rapidly failing.

French Affairs.

PARIS, Sept. 18.—The mortality this week has decreased 100.

The disarmament of the National Guard is progressing quietly.

Changarnier is well.

A railway accident occurred to-day at Champigny. Nine persons were killed and many wounded.

The Governor of Marseilles is summoned to Versailles to consult with Thiers as to the disarmament of the Nationales.

Miscellaneous European News.

LONDON, Sept. 18.—Mail advices from Italy report party feeling in Rome still very high. The press of both parties are fiercely at war, one attacking Papal institutions and the other defends. Speedy success of the Internationals is even indulged in with the hope that out of the chaos the Pope and Bourbons might again come into possession. The Republicans are preparing for a manifestation for the 20th, but no disorder is apprehended.

The Shanghai *Courier* says the French representative received a telegram to make common cause with Americans in Corea.

Dr. Livingstone is heard from at Zanzibar. Some Americans are hurrying to his relief.

The Russian press is attacking Prussia and Germany.

There are rumors of elections for French councils in October.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Sept. 18.—The schooner *Undine*, from Bridgeport, reports a terrible accident at that place. As she was loading the slings parted and the cars came down like lightning, knocking the whole structure of the chute into the sea, killing Allen Glass, aged 17 years. His body was swept into the ocean and not recovered.

Colonel Daniel Norcross will be a candidate for the appointment to the Adjutant Generalship under the incoming administration, and will be backed by very strong influences. Captain Edwards will also be a candidate. There are a number of parties looking after the Major-Generalship, and the several subordinate military appointments.

It was supposed that the news of the great fire at Pioche would injuriously affect Meadow Valley and Raymond & Ely stocks, but the Superintendents of both mines telegraphed here that neither was affected in the least by fire or explosion. Both stocks advanced to-day.

Private letters from Schell Creek, Nevada, report discoveries of extraordinary richness in that vicinity. There are symptoms of a new mining excitement growing out of them in San Francisco. A number of parties are preparing to leave San Francisco with a view to operating.

SAN FRANCISCO, Sept. 18.—The case of Dr. Chas. O'Donnell, Cohen the astrologer and Isabella Knapp (abortionists), indicted for the murder of Eugenie Chauvette, was called before Judge McKinstry to-day for trial. Assistant District Attorney Preston arose and moved that a nolle prosequi be entered in each case, as he was satisfied, under the circumstances, that notwithstanding the conduct of defendants was very suspicious, he could not hope to obtain a verdict of guilty on the evidence, and ought to do so, and that if one was obtained it would be set aside as contrary to law and the testimony. Judge McKinstry said that if such was the case he was surprised that the defendants were ever indicted, and on the assurance of the Assistant District Attorney he would grant the motion. The defendants were then set at liberty, and left with their friends. This action creates much surprise in San Francisco, as it was expected that at least the formality of a trial would be gone through with.

The case of James Johnson, who alleges that he was induced to loan $10,500 by one Herring, a watchmaker, who answered his advertisement of $80,000 money to loan, to one Jacoby, who, with the aid of M. Dantziger, a pawnbroker, selected by his landlady, Mrs. Grace, to loan $10,500 on what purported to be diamonds and fine jewelry, worth double that amount, but really worth less than $6,000, is a novel one. The case having been worked up by detectives, he commenced suit to-day against Dantziger and Jacoby for the recovery of his money, and was immediately served with a summons on a suit for breach of promise—damages, $10,000, by Mrs. Grace. He came here from the East in June last, and has already acquired a very unfavorable opinion of San Francisco business men and women.

INTERIOR CALIFORNIA DISPATCHES.

The Los Angeles Wine Yield.

LOS ANGELES, Sept. 18.—The estimated grape crop in the vicinity of Anaheim is two-thirds that of last year. In this vicinity the crop will perhaps exceed last year. The largest wine growers of this valley expect to crush over 200,000 gallons. Total wine yield of this county is estimated at a million and a quarter gallons.

NEVADA.

The Pioche Disaster.

HAMILTON, Sept. 18.—A meeting held here last evening subscribed $1,000 for the relief of the Pioche sufferers. An extra stage was sent forward loaded with medicines, provisions, etc., for the sufferers. An appeal from Pioche to neighboring towns is made for aid, especially in drugs and medicines. Everything was destroyed, and the wounded are suffering in consequence. The jury in the case of the State vs. Fox, locked up on the 15th, were released and dispersed on the breaking out of the fire. One of their number, Wm. Dodds, was killed. A new jury will be necessary to try the case.

OREGON.

In Douglas county one dollar is paid for wheat, buyers taking all that offers.

W. B. Clarke is pushing on the Umpqua river improvement, which will be completed in about three weeks.

Dr. E. H. Greenman, a resident of Jacksonville since 1853, died at the United States Hotel at that place on Friday last.

Judge Boise and Messrs. Caples and Mallory spoke at the Republican ratification meeting at Salem on Saturday night.

Coos county is rapidly filling up with emigrants. Every available piece of land (out of the swamps) is being taken for homes.

Professor Robb has been engaged to teach at McMinnville for five years. It is the intention to build up a Normal School.

A Roseburg paper says that the Sheriff of Douglas county has discovered "traces" of a gang of thieves. Doubtless the Sheriff is now looking for the balance of the harness.

From the Roseburg *Plaindealer*: On last Wednesday a force of two hundred Chinamen was put upon the grade between [illegible] Creek and Chas. Drain's farm. The grade over the Smith hill will be finished in two weeks. The ties are already placed upon the line from Eugene City to about five miles this side of Hawley's. From present indications the cars will be running to Oakland this winter.

All of these painful, distressing and eventually fatal maladies are speedily and permanently cured by the late discoveries and scientific mode of practice peculiar to
DR. ABORN,
Whose remarkable success in curing Chronic and Obstinate Diseases that have for years or a lifetime resisted the usual routine of treatment is well known on the Pacific Coast as well as throughout the Union.
Convalescence and Recovery
are rapid under his new and scientific mode of treatment. But very few, if any, [illegible] in the profession have been so uniformly successful as DR. ABORN. Combining with his knowledge, skill and experience in his special branch of the profession all that the inventors of the age or the late discoveries of medical science have brought to the aid of the modern practitioner, DR. ABORN is prepared to treat with almost unfailing success all such cases as may come under his care. He has, within the past few years, introduced into his practice many new and important remedies, with novel and effectual modes of application, with which, during his professional career, he has produced the most successful and satisfactory results.

DR. ABORN,
For twelve years past has devoted himself to office practice for the treatment of obstinate chronic diseases, especially such cases as have resisted all the ordinary modes of practice. He has thus been enabled to treat at least five times as many patients annually as he possibly could, had he treated them at their residences. Thus he claims twelve years' office practice, exclusively devoted to special chronic diseases, as more than equivalent to sixty years' experience in general practice.
NO PAINFUL OPERATIONS.
DR. ABORN does not subject his patients to any painful or unpleasant operations. His treatment is mild and safe for the most delicate child. The afflicted are hereby informed that after the first visit, for many of the diseases which he makes a specialty, they can take the treatment home and use it until cured, without pain or interruption to their usual avocations.
DR. ABORN
Is now professionally at the
St. Charles Hotel,
PORTLAND, OREGON.
Where he can be seen, professionally until the 1st of October.

EASTERN DATES TO SEPT. 18.

EASTERN STATES.

The Tammany Thieves.

NEW YORK, Sept. 17.—The latest report of the situation in the Tammany matter, is that Mayor Hall considers the office of Controller vacant by reason of Connolly giving it up to a deputy, and that Hall has appointed Gen. McClellan Controllor. It is said McClellan will accept if there are no legal difficulties in the way. If he declines, the Mayor will appoint S. L. M. Barlow, a well known Democrat and very wealthy citizen.

Several facts which have been developed in connection with the appointment of Green have led to the belief that it was brought about by the active agency of the Democratic State Central Committee. S. J. Tilden, a member of the Committee and opponent of the Ring, is credited with suggesting the arrangement and aided in its negotiation by ex Mayor Havemeyer who, it is concluded is known to be at the head of a formidable movement for a reorganization of the Democratic party, which has the support of the State Central Committee. Havemeyer is understood to be the bondsman of the new Deputy Controller. The new situation was generally accepted in view of these facts as the beginning of active operations by the State Central Committee against the ring, or at least that part of it which hoped to save its live by sacrificing Connolly.

The *Times* says editorially in regard to Green's appointment: Even the *World* will find it a hard task to villify Green or to assert that he is not the proper man to take Connolly's position. Green is a Democrat, but is a man who would be a credit to any party and whose verdict we should be quite willing to accept.

One hundred and fifty similar cases are pending, claiming $11,200,000 damages for the sacking of Piedas Negras in 1856, the town having been invaded by United States troops in pursuit of hostile Indians. The United States Government took much pains to procure offsetting proofs, having sent an agent to Mexico especially for that purpose.

POLITICAL NOTES.

Latest accounts place the debt of New York city at $200,000,000, an increase of $160,000,000 in less than three years. A fine specimen of Democratic economy!

Pearce, Dem., defeated for Congress in the third district of California, has sent a telegram to Coghlan, his successful competitor, saying, "I move to make it unanimous."

The Boston *Journal* says: "The Democracy are still without any guiding policy, except opposition to Republicanism, and they are debating whether they shall not so far give up that as to acquiesce in the Republican measures of four or five years ago."

The Albany *Express* says: "Let the grumblers continue to grumble. People of average intelligence will praise the administration for reducing, by honorable means, the principal and interest upon the public debt; and people of average honesty will sustain Congress and the Administration in paying our creditors the full amount that we agreed to pay."

The Sacramento *Reporter*, Democratic State organ of California, has received light. It talks in this way about the election: It is no child's play, this fighting Radicalism in California. The Democracy triumphed four years ago by the aid of thousands of Radical votes. A majority of the people of the State are Radicals, and the election of the 6th instant leads us to believe that they endorse the whole policy of that party.

Woman Suffrage.

PORTLAND, Sept. 18th, 1871.

TO THE EDITOR OF THE OREGONIAN:

SIR: Your editorial in the daily of to-day upon "Woman Suffrage," embodies my sentiments in-to-to so far as it goes, but I beg the privilege of a little extension of the same subject.

Unlike yourself, I do take a stand against "Woman Suffrage"—not what is some times called a *manish* position, that is, with a selfish prejudice against it. But I do contend that to extend their request to the extent they ask, would be the extension of a privilege (perhaps a right) which would deteriorate from woman's best interest, and what would depreciate her present influence. Men and women are very alike—mentally they are the same. That which attracts or repels the one, will have a like influence upon the other, and *this* is my greatest reason for opposing the movement. Experience has taught us that the political arena is a hazardous one for men to enter. There is something in it fascinating, intoxicating. Men reared and trained from infancy to habits of truth, temperance and virtue, so much so that they were supposed to be impregnable, after entering the political arena, and especially after having acquired office, have fallen oh! how far. Not only has this been proven true times without number *individually*, but as a *body* politic. This is so true that I affirm this to be the necessity for rival parties.

When a new party is placed in power, while it is weak, how very steadily it holds governmental reins. Everything goes like "clock work," as we some times say, for awhile; no robberies committed, no frauds practiced, individuals in office are vigilant and correct. But by and by the party gains strength until it realizes that it has a controlling power. Then what follows?

Why, villinies of every caste and degree are practiced by incumbents in office—so much so as to arouse the injured majority to a sense of their condition, and they go to work, organize a party of purer principles and vote the incumbents out of office.

Then for a little while the purified ranks move along again.

Of these villinies our noble women are at present innocent. But arguing from the hypothesis that men and women are mentally alike, prompted to acts of wrong by like motives, does it not admit a logical conclusion that they, like *men*, would degenerate into vicious habits and feelings?

And if this deduction is a correct one, would not pure, innocent women be let down?

Some argue that women are intrinsically better than men. I don't believe it. Originally both were pure, but neither are now.

Women are better than men, now, but I think it is the associations by which they are surrounded that makes them so.

Take away those surrounding influences and surround them by the evil ones by which boys and men are surrounded, and I give it as my opinion that women will descend to a greater extent than men will ascend. Advocates of Women's Rights ask more than would be advantageous to them if they should get it.

Description of a Tammany Thief.

The telegraphic dispatches for sometime have contained little else but the doings of the Tammany ring and the action of honest citizens against the thieves. The other day it was stated that Connolly, the Controller of the city, had been making over his plunder to his wife, and she to her son, to keep it out of the reach of the people who have been robbed. A description of this Tammany thief we find in the New York correspondence of the Chicago *Tribune*. It will prove interesting to the general reader:

It is a great advantage to a scoundrel to be without sensibility or breeding, and though in this last respect Dick Connolly is happily wholly deficient, yet by some law of compensation he is a victim of the former weakness. Dick's sensibility is mere terror intensified by superstition. The apparition of a gallows and a vigilance committee is ever present to him, and being ignorant as a brute, he is invariably excited over newspaper exposures of his transactions. The type and the press are are to him handwriting on the wall and the instrument of torture. He inwardly howls and grovels when the truth comes out and his thieving is exhibited. "My God!" he said, a couple of days ago, "this matter in the *Times* has driven me wife and me children away from their home in the country. The couldn't absolutely live there. And what is to become of us all?"

To look upon the poor millionaire footpad resembles an Irish informer against his country man in the employ of the British Government—such as we see depicted in Lever's novels or in Boucicault's dramas. He is a native Irishman, and, I believe, a Corkonian; fat, large, with a beardless, treacherous face, carrying in its creases a shallow, spontaneous smile, the emanation of a weak and ductile nature. His long, aquiline nose and good fore head do not redeem this pliant, cowardly face from its repulsiveness, and his familiar, conciliating address complete the impression of Connolly's moral and social usefulness. His use in Tammany is to sell out mutinous Democratic organizations, to keep certain of the worst wards and districts tractable, and to shave warrants and bills for the benefit of the band. It is seldom that a bill against the corporation is paid to the amount of its face by this Shylock. He pleads an empty treasury, till some of his many creatures can overtake the creditor and make a ruinous compromise; the bill is then paid to its full claim, and the difference above the compromise goes into Connolly's pocket.

This mean spirited thief is without Tweed's ingenuity for inventing collateral subjects of plunder, or Sweeney's abstract and comprehensive ambition. He knows no other way to steal but merely to go and steal.

"Why do not the Tammany leaders, as a mere matter of pride and to still the clamor, finish the new court house edifice?"

I put this question to a Tammany man. "Why?" he said. "Because Dick Connolly, when they voted $800,000 two years ago to finish it, stole all but $20,000 before they had drawn against the appropriation. Last year they voted $1,500,000 to finish the work, and Connolly, before they could touch the money, had stolen all but $300,000."

The new court house could be built by any builder of discretion in the United States for $1,000,000, but it has cost as much as the Treasury at Washington, or upwards of $7,000,000. And there it stands, perfectly suspended, a monument of nothing but civic impotence and crime. It is a white marble building in Corinthian architecture, about half or less than half the size of the Chicago county and city hall. Neither of its porticos are completed, and the dome does not appear. Yet in this forlorn structure there are charges for carpets alone of $673,752 49, which is more than the entire cost of all the national offices at Washington City; $12,000 is the largest sum that it would be possible for the carpets in this building to cost.

A Berlin letter says: That Bismarck wishes an Austro-German alliance is manifest to all who watch the course of German politics. That more is felt than is said, is manifest, and we are apt to read between the lines the dread of a Russo-French counter alliance as the real motive.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

Fire at Chicago—Children Burned.

CHICAGO, Sept. 18.—Mrs. Brown in the Western part of the city went to church last night and left her two children locked in the kitchen. A fire broke out and they were smothered before discovered.

Fire at St. Albans, Vermont.

ST. ALBANS, Sept. 18.—A disastrous fire broke out on Lake street this morning and raged five hours. The entire south side of the street from Forwell's block to the St. Albans House is in ashes. Fifteen families are homeless by the fire. Loss $300,000; largely insured. Firemen could do nothing for want of water.

Fight among the Tammany Thieves.

NEW YORK, Sept. 18.—Phases of the municipal fight are creating great excitement through the city. Connolly's action came like a thunder clap on Hall, Sweeney and their adherents. All last night Hall and his friends were consulting. The fight is now reduced to one between Hall and Connolly and their followers. Hall's desperation is shown by the removal of Connolly, thus using a power he had declared he did not possess. The action of Tilden, aimed at the destruction of the ring. The attempt of Hall to checkmate will probably result in a crisis which it is impossible to speculate upon.

The *Tribune* thinks it a matter of congratulation that the affair has taken this turn. The *World* says Connolly was persuaded into the course he took by promises of protection from the consequences of his conduct. It declares that the new dodge is approved by the Murphy men. It is thought it will so demoralize the Democrats as to secure the State for the Republicans in November.

Mayor Hall publishes in to-day's *Herald* a letter to Connolly, saying he considers his action in relinquishing his office to a deputy as a legal resignation. He therefore considers the Comptroller's office vacant, and has appointed a person to fill the vacancy. He writes a letter tendering the office to Gen. McClellan.

Later Phases.

NEW YORK, Sept. 18.—It is not generally known whether McClellan accepts the Comptrollership or not. Connolly is in the office to-day, and Green entered on his duties this afternoon. An opinion is expected to-day from the eminent lawyer Charles O'Conor, taking the ground that Connolly's course is sustained by law and Hall's is not. As Connolly is in possession, it is thought he will resist any attempt to oust him.

Connolly's reply to Hall denies the authority of the latter to exercise power, and declares he will not retire. Green has just delivered to a committee of citizens and Aldermen all documents in the office required in the investigation of the municipal accounts. Hall's clerks this afternoon refused to file the official oath of Green.

Miscellaneous European News.

LONDON, Sept. 18.—Mail advices from Italy report party feeling in Rome still very high. The press of both parties are fiercely at war, one attacking Papal institutions and the other defends. Speedy success of the Internationals is even indulged in, with the hope that out of the chaos the Pope and Bourbons might again come into possession. The Republicans are preparing for a manifestation for the 20th, but no disorder is apprehended.

The Shanghai *Courier* says the French representative received a telegram to make common cause with Americans in Corea.

Dr. Livingstone is heard from at Zanzibar. Some Americans are hurrying to his relief.

The Russian press is attacking Prussia and Germany.

There are rumors of elections for French councils in October.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Sept. 18.—The schooner *Undine*, from Bridgeport, reports a terrible accident at that place. As she was loading the slings parted and the bars came down like lightning, knocking the whole structure of the chute into the sea, killing Allen Glass, aged 17 years. His body was swept into the ocean and not recovered.

Colonel Daniel Norcross will be a candidate for the appointment to the Adjutant Generalship under the incoming administration, and will be backed by very strong influences. Captain Edwards will also be a candidate. There are a number of parties looking after the Major-Generalship and the several subordinate military appointments.

It was supposed that the news of the great fire at Pioche would injuriously affect Meadow Valley and Raymond & Ely stocks, but the Superintendents of both mines telegraphed here that neither was affected in the least by fire or explosion. Both stocks advanced to-day.

Private letters from Schell Creek, Nevada, report discoveries of extraordinary richness in that vicinity. There are symptoms of a new mining excitement growing out of them in San Francisco. A number of parties are preparing to leave San Francisco with a view to operating.

SAN FRANCISCO, Sept. 18.—The case of Dr. Chas. O'Donnell, Cohen the astrologer and Isabella Knapp (abortionists), indicted for the murder of Eugenie Chaquette, was called before Judge McKinstry to-day for trial, Assistant District Attorney Preston arose and moved that a nolle prosequi be entered in each case, as he was satisfied, under the circumstances, that notwithstanding the conduct of defendants was very suspicious, he could not hope to obtain a verdict of guilty on the evidence, and ought to do so, and that if one was obtained it would be set aside as contrary to law and the testimony. Judge McKinstry said that if such was the case he was surprised that the defendants were ever indicted, and on the assurance of the Assistant District Attorney he would grant the motion. The defendants were then set at liberty, and left with their friends. This action creates much surprise in San Francisco, as it was expected that at least the formality of a trial would be gone through with.

The case of James Johnson, who alleges that he was induced to loan $10,500 by one Herring, a watchmaker, who answered his advertisement of $80,000 money to loan, to one Jacoby, who, with the aid of H. Dantziger, a pawnbroker, selected by his landlady, Mrs. Grace, to loan $10,500 on what purported to be diamonds and fine jewelry, worth double that amount, but really worth less than $6,000, is a novel one. The case having been worked up by detectives, he commenced suit to-day against Dantziger and Jacoby for the recovery of his money, and was immediately served with a summons on a suit for breach of promise—damages, $10,000, by Mrs. Grace. He came here from the East in June last, and has already acquired a very unfavorable opinion of San Francisco business men and women.

INTERIOR CALIFORNIA DISPATCHES.

The Los Angeles Wine Yield.

LOS ANGELES, Sept. 18.—The estimated grape crop in the vicinity of Anaheim is two thirds that of last year. In this vicinity the crop will perhaps exceed last year. The largest wine growers of this valley expect to crush over 200,000 gallons. Total wine yield of this county is estimated at a million and a quarter gallons.

NEVADA.

The Pioche Disaster.

HAMILTON, Sept. 18.—A meeting held here last evening subscribed $1,000 for the relief of the Pioche sufferers. An extra stage was sent forward loaded with medicines, provisions, etc., for the sufferers. An appeal from Pioche to neighboring towns is made for aid, especially in drugs and medicines. Everything was destroyed, and the wounded are suffering in consequence. The jury in the case of the State vs. Fox, locked up on the 15th, were released and dispersed on the breaking out of the fire. One of their number, Wm. Dodds, was killed. A new jury will be necessary to try the case.

TUESDAY MORNING, SEPT. 19, 1871.

Jefferson Again.

The other day we stated as an historical fact that Jefferson did not originate the truths of the Declaration of Independence; that those truths were familiar to the American mind long before the 4th of July, 1776; that Jefferson took from older documents all the leading ideas and expressions which he used in drafting the instrument; and that in his whole career he originated nothing of consequence but the Democratic gospel of secession and rebellion, as set forth in the resolutions of '98. To this the *Herald* attempts to make answer, as follows:

> The old Federalists and monarchical slanderers of Jefferson undertook, early in this century, to impair and tarnish his illustrious fame and character by just the same charge of plagiarism that is here repeated; but the slander and the slanderers were long since consigned to oblivion, while Jefferson's splendid fame and philosophy are the common heritage of all men who love liberty and hate despotism and meanness, throughout the civilized world.

A large part of our work has to be done over and over again, for the reason that the [illegible] Oregon editors every few months, and we no sooner get one of them reasonably well instructed as to Jefferson, whom they all swear by, than another takes his place, and it devolves on us to put his successor through the same course.

No literary fact is better established than that Jefferson did plagiarize the leading parts of the Declaration, and then lied about it afterwards. He desired it to be recorded on his monument that he was the "author" of that document, and labored to spread the belief that he owed no part of it to anybody. The proofs of the plagiarism are complete and convincing. Resemblances between this instrument and several earlier documents are so exact that they could not possibly be accidental.

In 1819 John Adams wrote to Jefferson, pointing out the similarity of the Mecklenburg North Carolina Declaration to the Declaration made at Philadelphia, and calling his attention to the fact that the former purported to be the older document. Jefferson replied by denying the authenticity of the Mecklenburg paper. This letter was published, and the Legislature of North Carolina, instigated by a natural State pride, appointed a Committee to make a thorough investigation of all the facts connected with the Mecklenburg Declaration. It was established beyond controversy that the citizens of Mecklenburg county, North Carolina, did on the 20th May, 1775, make a Declaration of Independence, and that the resemblance between this document and the Declaration at Philadelphia as drawn up by Jefferson was so close as to make it absolutely certain that Jefferson plagiarized from it. That investigation was conducted by the political friends and followers of Jefferson in North Carolina, and not by "old Federalist and monarchical slanderers." Take a few parallel passages:

The Declaration as drawn by Jefferson.	*The Mecklenburg Declaration.*
When in the course of human events it becomes necessary for one people to dissolve the political bands which have connected them with another.	We, the citizens of Mecklenburg county, do hereby dissolve the political bands which have connected us with the mother country.
We do solemnly publish and declare that these united colonies are, and of right ought to be, free and independent States.	We do hereby declare ourselves a free and independent people; are, and of right ought to be a sovereign and self governing association.
For the support of this declaration we mutually pledge to each other our lives, our fortunes and our sacred honor.	—we solemnly pledge to each other our mutual co-operation, our lives, our fortunes, and our most sacred honor.

Let it be remembered that the Mecklenburg Declaration was more than a year prior in point of time to the Declaration of Philadelphia. Let the above resemblances be compared, and then let any candid man assert if he can that they are accidental.

The Virginia Bill of Rights was also largely borrowed from, as we might show by parallel passages. Hardly a new thought was inserted in the Declaration by Jefferson. It was merely a well drawn compilation, and the fact that he borrowed from other documents would never have been much commented on had he not in his "canine thirst" for fame, lied about the matter, as he habitually lied about all things, when he wanted to advance his own interest or injure those who were in his way.

The Law to Swindle Litigants.

Notwithstanding the bad luck that has overtaken the swindling litigant law in California, the mendicant press here are still trying to bolster the law up in this State. Assertions the most absurd and preposterous are made, in the effort to support it. It is affirmed that it is the custom of Congress to print the laws of the United States in Republican papers, therefore it is all right for the Legislature of Oregon to cause litigant notices to be printed in Democratic newspapers. But it is not true that the laws of the United States are published in newspapers, and the parallel would not be true if they were. It would be entirely proper to publish legislative acts in public journals; but the "litigant printing" which is secured to a rapacious pauper press under the laws of our State is not of a public character at all. It is business which pertains to individuals and not to the public, and the fees for publication are not paid by the public but by private parties. It is as absurd and unjust to make a law declaring what paper shall be employed to do this printing as it would be to pass an act to declare what lawyers litigants should employ in this class of cases, and fees should be paid them. This litigant law is objected to by the public without distinction of party, because it is a legalized device for robbery, and enables unscrupulous newspapers to fleece every person who has certain kinds of business to transact. The demand for its repeal will make itself heard in a way that will brook no resistance, ere long.

A correspondent who gives his views on woman suffrage thinks woman ought not to be allowed to enter politics, because politics are so very corrupting. Wouldn't it be as well, then, to disfranchise as many men as possible, so as to keep the mass of them pure, and set apart a few to be corrupted and sacrificed by voting and office holding for the good of the whole?

In blasting on the Umpqua river last week one solid rock of over one hundred feet in length and eight in width was totally demolished, not even a trace of it being left, by a blast of powder at the hands of one of the sub-contractors. It appears that upon close scrutiny a hole, formed by the action of the water, was found, which extended some four feet beneath the surface. This was carefully cleaned out, filled with powder and then ignited. One rock weighing nearly four tons was thrown as far as two hundred yards, alighting on the side of a mountain. The sub-contractor engaged to do this work for three hundred dollars, which it would have been worth by the usual method, but which, by his being fortunate enough to discover this aperture, was earned in less than two hours.

A Book of Lamentations.

The "new departure" was once very sweet in the Democratic mouth, but it is now very bitter in the Democratic belly. A number of the organs of that party in this State are attributing the defeat in California to the "departure," and long editorials on the subject have appeared in their columns. The disgust is intense, and finds utterance in emphatic demonstrations. The Roseburg *Plaindealer*, in a long article on the causes that produced the "lamentable result" in California, says:

> The chief was, unquestionably, the shameful abandonment of the principles of the party, in the adoption by the Convention of the Radical platform, which is known as the New Departure. * * * While we deeply deplore the loss of that State, we cannot but rejoice that the lesson taught by it has been received in time to prevent this pestilent heresy from obtaining a hearing in the next National Convention. Close upon the heels of California, Maine adds to its force by an increased Radical majority. Ohio is already lost, unless the declaration of the Chairman of the Democratic Committee, Senator Thurman, that the party do not accept the Fourteenth and Fifteenth Amendments, comes in time to save it. The fact is, that the exigency of the times demands that the people should take the control of their party into their own hands.

All this is very sad, but the "pestilent heresy" has come into the Democratic party to *stay*. Not only will it obtain a hearing in the next national convention of that party, but it will be adopted by that convention and forced on the Oregon Democracy. Let us quote now from the Eugene *Guard*:

> Democratic leaders committed the unpardonable blunder in policy—in principle it was the same—of abandoning a platform, under which they had two years previous gained a splendid victory, and adopted its very opposite. * * * Many excuses other than the above will be urged for this defeat by those who are the authors of it, such as the personal unpopularity of Governor Haight, the lavish use of money by the Republicans, etc. But to say that these were the principal causes for a change of over ten thousand votes from the Democratic to the Republican party is to say that a large portion of the Democratic party have so little regard for principle that through dislike to a single candidate they will sacrifice their entire Congressional and Legislative ticket, or that they are so corrupt that money can win them to the support of any cause. * * * Victory, if it do but displace one set of men and elevate to their places another, is not worth striving for. * * * It is only since 1860 that our leaders have lost the moral courage so necessary to a bold declaration of principles, and which alone can secure the confidence of the people, and since that time, floundering along in a vain attempt to approximate to the principles of our opponents and yet retain the semblance of Democracy, they have but excited the contempt of our enemies at the failure of their attempts, and their scorn for their hypocrisy.

Can't the *Guard* understand from all this that the real trouble with its party is that it absurdly tries to live when there is no reason why it should live?

More emphatic than either the *Plaindealer* or the *Guard* is the East Portland *Era*. Hear it:

> The great body of the Democracy are contending for principles, not fighting for spoils. They will not make a fight for victory if that fight is to be made on conditions by which the victory when gained would be shorn of all its value. By this new political movement we are to be pledged to accept measures in direct antagonism with the fundamental doctrines of Democracy; and more, when we say that these measures are no longer issues before the people we dismiss them from the field of controversy and virtually declare that we do not intend to disturb them further. After having taken this stand we cannot in honor make further war on the Amendments so detestable to all Democrats; and by sacrificing our convictions we take away the strongest incentive to energetic action. The spoilsmen may think the offices the only thing to be desired, but the Democratic masses do not expect to become office holders. One man in a thousand may fight in the hope of spoils, but the nine hundred and ninety-nine who contend, contend for the sake of their principles, seeing nothing to battle for in a campaign that begins by a base surrender, will either keep aloof from the fight or participate in it without faith or enthusiasm, and with a coldness that will foredoom the party to certain defeat.

This makes a sad case; we scarcely know how to offer any consolation. Strange it is that our cotemporaries are unable to perceive from the fact they have so forcibly stated that their party has no principles at all applicable to the present situation of affairs! The people see this, and that is what is the matter with Democracy.

The *Bulletin* thinks Brick Pomeroy should not have been invited to deliver the address at the Linn County Fair. We quite agree. As a public character Pomeroy is infamous and detestable. He is known chiefly by the coarseness and obscenity of his writings, and the sentiments by which he has distinguished himself are such as all decent people abhor. The man who clamored for the assassination of Lincoln and applauded the deed after it was done, should not be countenanced in any civilized community.

The San Francisco *Chronicle* figures the California Legislature thus: Republicans, 75; Democrats, 42. In the House the Democrats have but 22 members out of 79.

REMARKABLE CURE OF MRS. HOOVER.

Tualatin Plains, Washington Co., Oregon, July 22, 1871.

DR. A. M. LORYEA—I have been troubled with Rheumatism for the past twelve years; my joints, especially those of my feet and hands, were badly swollen, so that I could with difficulty go around. My shoulder pained me a great deal and a LARGE BONY SWELLING grew out, so that I could not raise my hand to my head. Since last spring I have been taking your "Oak Weed Remedy," and find myself much improved. The swelling and pain has left my joints and shoulder and THE BONY GROWTH HAS ENTIRELY DISAPPEARED and I use my limbs and am far better than I have been for years.

CITY.

THE OMENICA MINES.—Mr. Robert McCann this city reached home last evening from the Omenica mines. His account of that count agrees in all essential respects with a former o given us by Mr. Jacob Mann at Olympia. says the stories told about the Omenica country its richness in gold, of new discoveries, sales claims at high figures, etc.—are mostly fabric tions, published by interested parties. The roa to the mines is very mountainous and rough, and th region reported to be auriferous is of simil character. Men not unfrequently start to go some particular point and are never heard fro again. Some of them get lost in the mountains others get drowned in the rapids of the rivers In July the wash-holes of the prospectors fre quently froze over during the night. In sinking prospect holes solid frozen ground was ofte found at the depth of four or five feet groun that probably never thaws out. There is a grea deal of exaggeration and some good square lying about the prospects found and the yield of th mines in general. For instance, Mr. McCann says he knew one man who "struck it rich," re ported that he had found three dollars to the pan There was a rush to the locality and a number o claims were staked off. When the man's pros pect was weighed, however, it was found to b only *fifty cents*. Yet the news was sent out th the diggings were yielding three dollars to th pan. The way claims are sold at big figures is like this: The owners of the Takemina claim go to work, get a prospect which is reported in greatly exaggerated manner, people get excited and the claim is sold to some greenhorn for sa $3,000, the buyer paying perhaps $50 down an agreeing to pay the balance when the dust shal be taken out. The balance, and often the firs payment, is never taken out, and the seller neve expected it would be; yet the report is sent ou and published in the papers that th Takemina claim was sold for $3,000! Mr McCann says the reports about large sums of dus being brought down by expressmen are equall unreliable. He knew of one case where an ex pressman came down reporting that he ha brought *ten thousand* dollars in dust. Partie who came out with the expressman and saw hi dust weighed testified that it amounted to onl *sixteen hundred* dollars. This sort of exaggera tion seems to be the general rule. Fifty or sixty men came out with Mr. McCann, and they al united in denouncing the representations of th British Columbia press and traders in relation to the Omenica mines, as unreliable and largely false. Yet when these men came out the pres mentioned their arrival, and said in substanc that the men had no fault to find with the mines except that provisions were extremely high! Mr McCann and party were lost for two or three days in the "Frying Pan" Pass, during which time they were without provisions except a poor sor of grouse which they captured. He mentioned a number of creeks which have been reported auriferous he prospected, finding in most scarcely the "color." He says that it is not a mining country, and not more than a very few claims have ever been discovered rich enough to pay for working, considering the expense of get ting the yield and the short time during which they can be worked. Omenica seems, really, upon this and other good testimony, to be an outra geous fraud.

A [illegible] WHAT'S THE MATTER.—Ever since warm weather set in there has risen, almost constantly at the corner of Front and Morrison street a smell, louder and fouler than any o which the history of our city gives any account [illegible] have been exhausted without [illegible] for it and curses, loud and long drawn out, have been wasted on the foul air without abating it. Workmen engaged in tearing up the wharf at the foot of Morrison street, got sick and quit, others tried it, got sick and quit. Yesterday however, the work had progressed far enough to disclose the cause of the abomination. A street sewer, with which are connected the waste pipes of at least two hotels, and numerous private residences, was found to be emptying its loathsome contents, under the wharf, on the ground twenty or more feet from the edge of the water. The stench from the cess-pool thus formed is sickening to such a degree that no man with a nose could or would voluntarily stay a moment in the neighborhood. The man employed at the wharf knocked off and wouldn't have anything more to do with the job. A [illegible] was employed [illegible] and take the measurements for some new timbers; he began the job, but left it, declaring he couldn't work in such a place. Anybody going that way can see (and smell, too) what's the matter at the corner of Front and Morrison.

TALE OF A DOG.—An unsophisticated purp—name and residence not stated—got acquainted with the railroad yesterday. The tale is a brie one, but the dog's tail is a briefer, and briefer too, than it was yesterday morning. The hand construction car was running down the grade o Fourth street with a number of laborers on board, when the dog, more brave than [illegible], [illegible] at it with an energetic bow-wow, evidently under the impression that a snap and a snarl would run the thing off. The car, however, went on; so did the dog, first just ahead, then on the right, and then again on the left, as dogs are wont to do when chasing a terrified or pestered animal. He, how ever, crossed the track once too often. The dog got across all right, but his tail didn't, and quick er than the wink of an eye that dog had no tail to wag. That beautiful, long, silken appendage lay a crumpled wreck in the dust on one side of the rail, while the dog stood amazed on the other and wondering if lightning had struck any other dog There was no further contest on that line. What there was left of the dog went home satisfied that there is no use in trying to resist these crushing monopolies.

CLARKE COUNTY FAIR—STEAMER ARRANGE MENT.—The Clarke County Fair begins to-day a Vancouver. For the accommodation of those wh may wish to visit the Fair from this city the steamer *Vancouver* will make the round trip fro this city to Vancouver and back to-day, to-mor row and Thursday. She will leave to-day at half past two o'clock P. M., and return in the evening On Wednesday she will leave this city at eight A. M., and returning will leave Vancouver at half past four P. M. On Thursday she will leave Port land at the same hour as on Wednesday, and will then return to Vancouver, starting at half past six P. M., to accommodate those who ma wish to attend the grand ball of the Agricultura Society. The ball-goers will be able to return to this city at the usual hour the next morning.

THE HOLLY SYSTEM AND CHEAP WATER.—A correspondent of the *Advocate* who lately made personal visit to the Binghampton Holly Wate Works, writes that the system works well; tha the entire cost to the city was $140,000, and th water is not only furnished to the Fire Depart ment free, but to the citizens at two dollars a year One year's tax such as we of Portland pay, woul square the water bills in Binghampton for twelv years! Slight difference, is there not?

ANOTHER PROSPECTIVE OPPOSITION.—We lear from a gentleman just from Seattle, that Cap White, an old navigator and steamboat man o Puget Sound, has recently gone to San Francisc to procure a steamer to ply between Portland a Puget Sound. Our informant says that ve many of the merchants of the Sound towns ha united in a pledge to give Capt. White the freighting, in case he shall put on a steamer.

TARGET EXCURSION.—The annual target pra tice of the Washington Guard will take place ne the Forrest House, west of the city, on Frid The company, with a number of invited gue will leave the Armory at about 10 o'clock, A. and proceed to the ground selected. After t conclusion of the target shooting, lunch will served at the Forrest House. The company making preparations for a gala day of it.

WATER SUPPLY CUT OFF.—At seven o'cl this morning the supply of water will be shut from the Water Company's mains on Market Fourth streets, south of Market and east of Fou streets, from the intersection of those streets, will remain cut off until the water mains are l ered to make way for the railroad improveme

AGRICULTURAL SOCIETY'S BALL.—The Cla county fair will wind up Thursday night wit ball, given under the auspices of the Society. are requested to say that parties holding tic for the ball or fair will be charged only half by the steamer *Vancouver*.

FOURTH STREET RAILROAD.—It is expected the track on Fourth street will be connected day at the Fourth street bridge, in which cas locomotive will make a trial trip across the b and up the road as far as the track is laid.

SUPREME COURT.—Several of the attorne this city have again gone to Salem to atten Supreme Court, expecting the cases from th trict to be taken up to-day.

A DISCOVERY OF WHAT'S THE MATTER.—Ever since warm weather set in there has risen, almost constantly, at the corner of Front and Morrison streets, a smell, louder and fouler than any of which the history of our city gives any account. DESTITUTION IN PORTLAND.

TO THE EDITOR OF THE OREGONIAN:

SIR—The "Bad Case" you allude to in your paper of Saturday is indeed a bad one. Besides drawing upon the visitor's sympathies and purse at the door of the Association Rooms, compelling him, like the widow in the Gospel, to give all, it has drawn on the resources of the Relief Society and the Y. M. C. A. for more than a fortnight. However it may be with the Ladies, the Young Men's Association cannot with its present funds stand the strain for a long time which this one woman with her seven children can put upon it. She would, in the supply of her necessary wants, break the treasury in two months.

She came to this city, nearly three weeks ago, from Vancouver. Her husband has been a soldier in the army, but he is not available now, because he has so many children. Determined to be nothing but a soldier, he has left his family and gone to San Francisco. He told her that if he enlisted he would send for her; if not, she would never see him again. So says his wife, with tears in her eyes.

Some of the ladies found her at the wharf and hired a house for her. They called on the Association I represent to help her. So in this case, as in some others, there is a partnership. I think as a company we have been faithful. Provisions have been furnished. One of the children has found a home; another could have one if she would accept of it. Now, what more can be done? There is no organization in the city that can afford more than temporary aid. Some may say, let the woman work; but what if she cannot get it? She has sought it, so she says, from house to house. Certainly she has begged, and the people to whom she has gone know whether she has asked for work. The great object in giving her relief has been to enable her to help herself; but how can she help herself if she cannot get work? I have applied at the hotels, and the reporter of the OREGONIAN has noticed the case, but have not been able to get work for her. It is not an easy matter. There are Chinese in the city that do washing—and scrubbing of some kind I imagine would be her work. I think she is hedged up to *one* kind of work, and if she can't scrub, she must beg or steal. It is a bad case, and what can be done? There is the County Poor House, but this is full. The Commissioner tells me it is no place for such a family. Ought there not to be something done for cases like these? They are likely to occur among us; there is more than one here now; Portland is growing, and they will be of more frequent occurrence. While we are considering water works, railroads, parks, etc., let us not neglect some of those benevolent institutions so much needed among us. Let us agitate for a House of Industry for the children, a House of Refuge, something that will give comfort and relief to the poor. We shall have them always with us. Respectfully,

W. R. JOYSLIN, Sec. Y. M. C. A.

PORTLAND, Sept. 18, 1871.

ON MARRIAGE.

ESSAYS FOR YOUNG MEN, on great SOCIAL EVILS and ABUSES, which interfere with MARRIAGE, and ruin the happiness of thousands,—with sure means of relief for the Erring and Unfortunate, diseased and debilitated. Over-doctored.

Without any disrespect to the members of the medical profession, a profession honored by all thinking men, it is only just to say that they are too thick on the ground. The consequence is that the community is doctored over much. When nature needs only the gentle stimulant and alterative, which has become famous throughout the country as a reliable medicine, under the name of Hostetter's Stomach Bitters, she is not unfrequently dosed with a dozen prescriptions, all experimental, from the Pharmacopœia. This is an evil, and proves that the practice of medicine is far from being at all times a healing art. At this period of the year, when the fall of the leaf indicates that decay has seized upon the vegetable kingdom, many harassing diseases are prevalent. Chief among these may be mentioned intermittent fever and bilious remittent. The exhalations arising from the decomposing vegetation, and the heavy dews and fogs, are very apt to generate these complaints. The wisest policy is to protect the system by a course of Hostetter's Stomach Bitters at the commencement of the fall. Much suffering may thereby be avoided. But if the disease has already begun, its periodical visitations may readily be checked and broken up by this active, yet harmless, vegetable tonic.

But be on your guard against the charlatans who are attempting to palm off, under various names, unwholesome compounds, which they pretend to compare favorably with the great national elixir, which has long swept more formidable opposition from the field. Bear in mind that every bottle of genuine Hostetter's Stomach Bitters is authenticated by a splendidly engraved label, and a fac simile of the sign manual of the firm. Put up in bottles only, and cannot be obtained in bulk.

PICKINGS.

A red hot copperhead, in Ohio indignantly refused to allow a physician to attend him in a bad case of fever because he promised to effect a "radical" cure.

A negro once gave the following toast: "De gubernor ob our State—He come in wid very little opposition, he go out wid none at all." This will apply to Haight of California.

The local editor of an Indiana paper introduced a quantity of carbolic acid into his bedroom to drive away the mosquitoes and then—went and slept in the woodshed.

The Memphis *Avalanche* tells it in the following manner: "Within the last week the tones of the revolver, derringer and shot-gun have broken the stillness of our city's air three times, and the corresponding number of unfortunates now sleep in the valley. Verily, it begins to look like the old times of 1864 and 1865."

That was a queer burglar who stole from the office of Dick Connolly, Controller of New York city, a lot of the vouchers of 1870. The New York *Times* must take the responsibility of this theft. It has shown, these many weeks, that there were millions of dollars in those vouchers. No wonder some of the Democracy were tempted to plunder this rich place.

THE HEAD THIEVES AND THEIR FORTUNES. Howard Ellis, one of the speakers at the citizens meeting in New York September 4th, to take steps for the prosecution of the leading "ring" thieves, thus sketched four of them: Four men are representatives of the "Ring" and the powers that govern this city. Wm. M. Tweed was the head and front of the roughs. [illegible] years ago he was a bankrupt, and the leader of a gang of roughs. He was then penniless; but is now worth $15,000,000. Peter B. Sweeney stood back of him and supplied him with brains. The third was Richard B. Connolly, a prime thief, who, a few years ago, was worth but $1,200 a year as clerk in a bank, but whose wealth is now beyond all knowledge. The fourth was A. Oakey Hall, who for several years was District Attorney, and put away over 12,000 indictments. These were the men who governed New York.

FINANCE AND COMMERCE.

[illegible] Sept. 18, 1871.

Gold in New York, 114⅝.

Currency, buying, 87½; selling, 88½.

The brigantine Grace, [illegible] San Francisco with cargo, assorted merchandise, arrived this morning.

The bark [illegible] will complete loading last of this week. She will carry 1,050 tons of 2,240 lbs each of Wheat to the United Kingdom.

The Dorothy is put on for the United Kingdom. She will take [illegible] tons, 2,240 each, Wheat.

Steamer Ajax, with full passenger list and cargo assorted [illegible], arrived this evening. She will leave on Thursday for San Francisco.

We have advices to-day from Liverpool, 12 days later than previously reported giving the Wheat market firmer owing to the [illegible] character of the weather, which unless it assumes a more settled aspect would cause a speculative demand to set in, notwithstanding the present high range of values. [illegible] quality of [illegible] was more [illegible] after an advance of from 6d to 1s, but common and inferior kinds do not meet with any inquiry. Corn was weaker by 6d per quarter. The first advances of Wheat noted by us last month in England were caused by a steady demand, [illegible].

Eastern mail advices give Wheat market more buoyant with heavy purchases made for immediate shipment to Great Britain and the Continent. Tonnage again advanced under an active demand for Wheat shipments. The exchanges give average daily sales in New York of Wheat for shipment to Great Britain and the continent of over 1,000,000 centals, or 7,000 tons daily. This is in Wheat only. The Corn shipments are also very large. The exports from all the seaport towns in the Eastern States are largely in excess of the same period last year. These large shipments confirm the remarks made by us in the OREGONIAN, August 21th, that the United States can, as was done in 1869, supply any short crops that might occur in Great Britain. In that year the United Kingdom took but little from the States and in consequence 10,000,000 bushels of Wheat were stored in Odessa, one of the principal export towns in Southern [illegible], over and above exports to Germany, Spain, etc.

The following are the values of the principal [illegible] imported into the United States during the fiscal year ending June 30, 1871:

Free of duty—Chemicals, drugs, dyes and medicines, $1,[illegible]; cochineal, $1,164,[illegible]; fur skins, undressed, $[illegible]; gold and silver coin, $19,985,801; gold and silver bullion, $1,283,723; guano, $3,322,328; India rubber and gutta percha, $2,307,[illegible]; [illegible], $2,052,[illegible]; [illegible] $5,748[illegible]; raw silk, $5,739,302.

Dutiable—Animals, living, $346,926; [illegible], $7,[illegible]; coffee, 30,992,869; cotton, manufactures of, $20,[illegible]; chemicals, drugs, [illegible] and dyes, $6,437,414; earthen, stone and china ware, $4,681,370; flax, raw, $494,632; manufactures of flax, $8,051,695; [illegible], $9,602,530; hides and skins, $14,592,967; railroad bars or rails, $17,669,297; India rubber and gutta percha, $3,004,617; manufactures of silk, $31,341,001; sugar, brown, $10,[illegible]; [illegible] $10,193,384; tin, $10,254,017; tin and manufactures of, $12,737,216; wood and manufactures of, [illegible]; wool, raw and fleece, $9,790,443; wool, manufactures of, $[illegible].

Breadstuffs, $79,370,187; cotton, raw, $218,327,109; cotton, manufactures of, $2,501,335; furs and fur skins, $1,600,103; gold and silver coin, $58,027,484; gold and silver bullion, $26,375,875; muskets, pistols, &c., $18,[illegible]; naval stores, $1,091,435; oil cake, $5,160,021; [illegible], $134,138,734; crude petroleum, $1,820,503; bacon and hams, $3,126,583; cheese, $3,752,990; lard, $10,565,020; pork, $4,312,320; beef, $3,825,660; leaf tobacco, $12,908,125; wood and manufactures of, $12,916,543.

The following are the comparative tables of aggregate Imports and Exports for the fiscal years ending June 30, 1870, and June 30, 1871:

Medical.

TO THE UNFORTUNATE.
NEW REMEDIES, NEW REMEDIES.
Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe, and has resumed practice at his Dispensary, 623 Kearny street, corner of Commercial, San Francisco, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering [illegible] once from the effects of secret indulgence or from virus absorbed into the system! Look at the pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrible [illegible] thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his special study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their ability in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an alarming extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fœtid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN!

Or those who contemplate marriage, who are well aware [illegible] any of these fearful maladies [illegible] not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible and will give to each patient a written instrument, binding himself to effect a speedy and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country with full and plain directions. By inclosing Ten Dollars in a registered letter through the Postoffice or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union.

All communications strictly confidential.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn-to certificates [illegible] Some of the self-styled doctors, whose [illegible] to be found in the daily and weekly newspapers of San Francisco and other places, are traders [illegible] too lazy too work at their trades. Some are [illegible] shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory and you will not find their Medical Institutes in it, but you will find their former occupations in it. [illegible] Directory for 1862 and 1863. The only way [illegible] to make inquiry—it will cost you [illegible] may save you many regrets; for, as advertising [illegible] eight cases out of ten are bogus, there [illegible] trusting any of them, until you know who and what they are. Dr. Gibbon does not deceive [illegible] bogus titles, certificates, pretended [illegible]. Dr. Gibbon will satisfy persons [illegible] his ability to treat diseases [illegible] cure.

Address DR. J. F. GIBBON, [illegible] Kearny street, corner Commercial, San Francisco [illegible] Office Box 1,957. REMEMBER TO PUT [illegible] ON THE [illegible].
